Date: July 31, 2018  
Re: Traffic Safety item for August - COAST

COAST is interested in rearranging their bus stops on Rte 108 in the proximity of Somersworth Storage and the Works. Please see attached map. They had 2 new customers from Colonial Village that are wheelchair dependent and the original stop location at the corner of Somersworth Storage property and The Works property required these individuals to come down Second Ave and then navigate down Rte 108 nearly 500 feet to the bus stop. COAST felt that this posed safety risks.

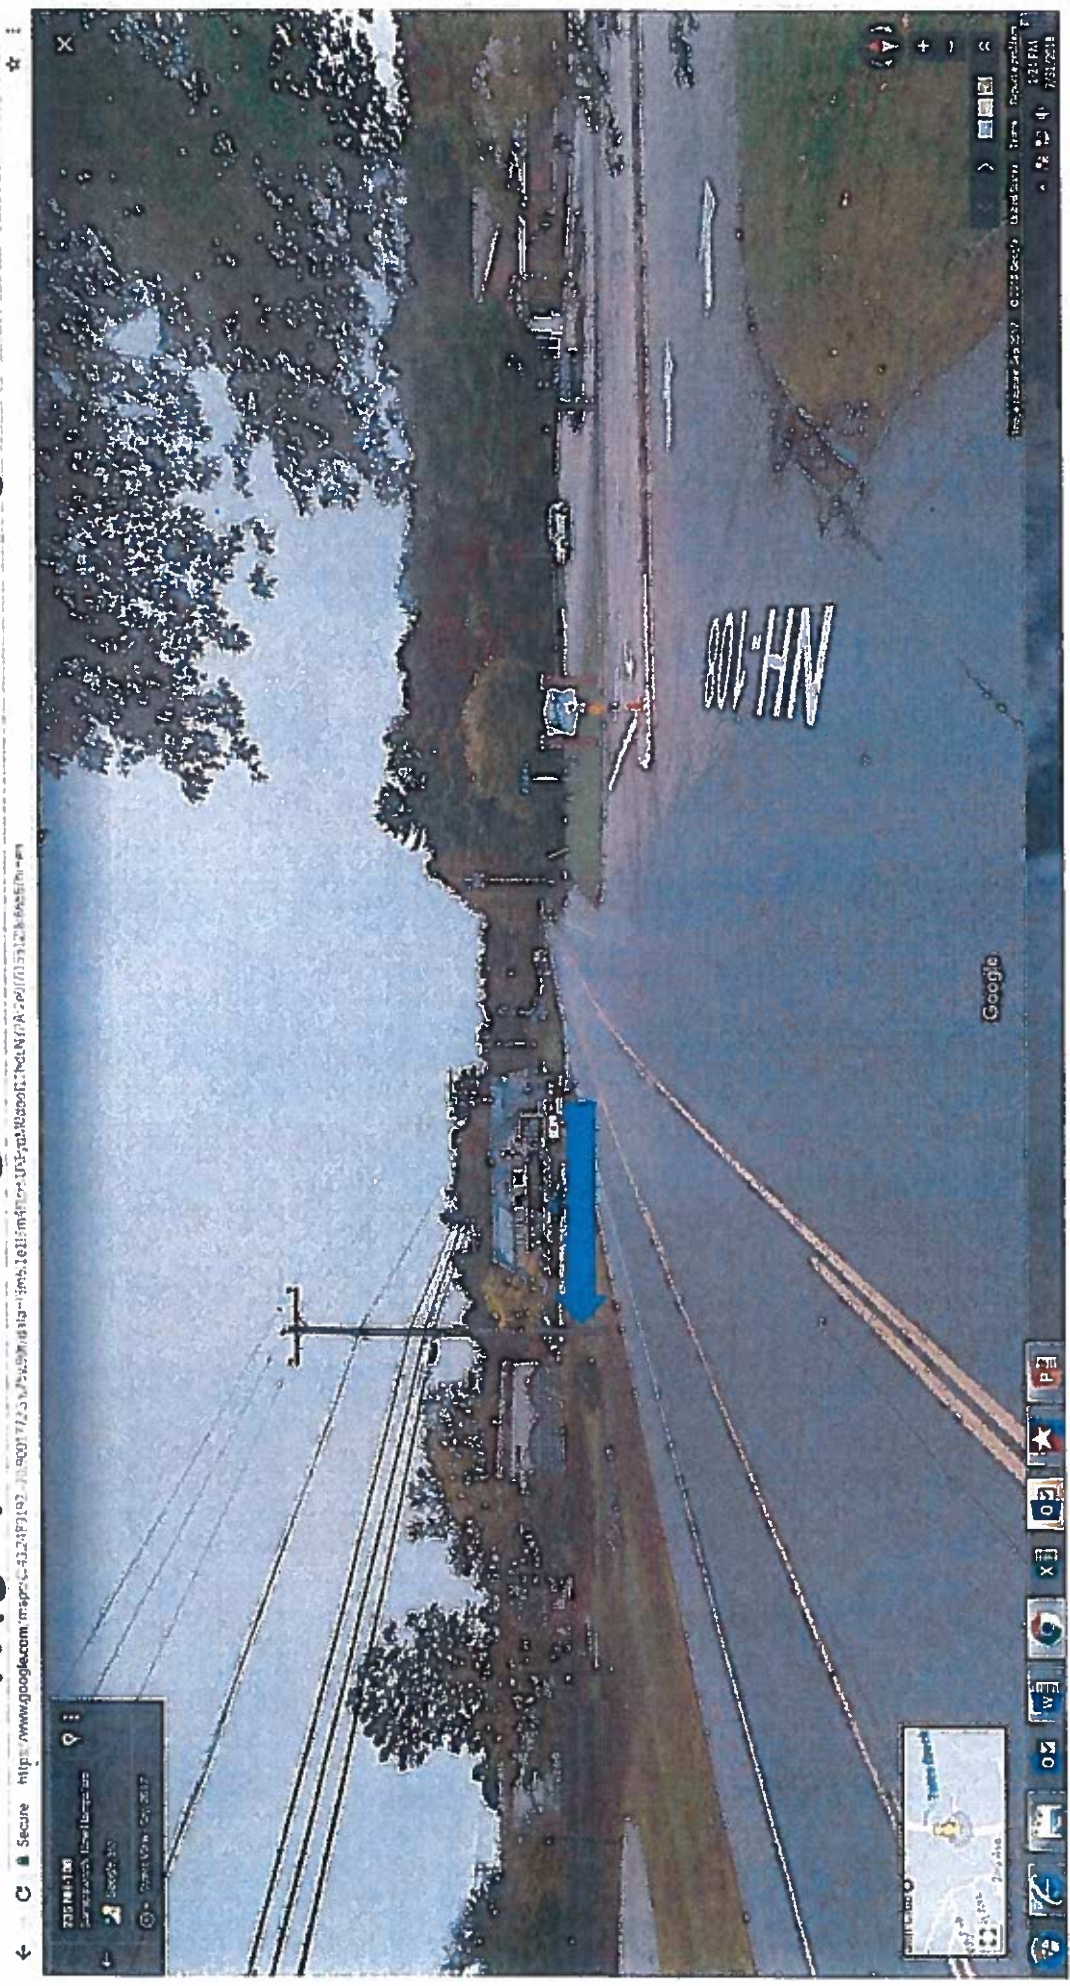

In speaking with the owners of Somersworth Storage they would not like to have the bus stop at their driveway. It is a safety issue to have individuals waiting in their driveway when The Storage customers are pulling in. In addition, the bus would block their driveway when it stops not allowing driving customers to get in or out.

The compromise location is to move the bus stop further south to the entrance of Second Ave. Because this is so far from The Works COAST would actually, like to keep The Works stop and then ADD a stop at Second Ave. They would then like to have the option to remove the stop from Blackwater Road since that stop is less used.

Please see attached photos of the COAST existing stop and proposed stop.

If there is room on the agenda, I would like to add this to the August Traffic Safety Meeting. Thank you.

Existing stop at property line btwn  
The Works & Somersworth Storage

# Proposed stop at Second Street

Blackwater Rd stop may be removed
